OUISTITI

Designed for children weighing less than 30 kg, the OUISTITI harness is very comfortable, thanks to its padded structure. It is very easy to put on and adjust, it does not require a connector to be fastened, and the adjustment system is difficult for a child to access. With a front tie-in point and a dorsal attachment point, the harness is suited for group activities.

Easy to put on and adjust.

Dorsal attachment point is color-coded orange, allowing for a variety of activities at height.

Short Description Comfortable and versatile full-body harness for children less than 30 kg

Selling Points

- Comfortable to wear on the ground or when suspended:
 - quilted closed-cell foam structure on the leg loops, positioning waistbelt and shoulder straps
 - does not require connectors to remain fastened, allowing the child to continue wearing the harness for playing without hindrance
 - front tie-in point is reinforced and lower, for greater comfort when suspended
- Easy to put on and adjust:
 - proper donning is facilitated by holding and shaking the harness from the orange dorsal point
 - semi-rigid structure is color-coded (gray foam interior and blue exterior) for easy donning
 - primary adjustment is done on the shoulder straps with the DOUBLEBACK buckles
 - secondary adjustment, for small or big children, is done with the DOUBLEBACK buckles on the back of the harness
- Multipurpose harness adapted for group activities:
 - one size, up to 30 kg
 - DOUBLEBACK buckles are out of reach of the child
 - front tie-in point is color-coded green, for primary connection
 - dorsal attachment point is color-coded orange
